Guideline: Issuance and Renewal of Practising and Auditing Certificates

Effective January 1, 2018
1. INTRODUCTION

This guideline is intended to provide guidance to members (based on current legislation and the ICATT Rules and Regulations 2018), and particularly to those members that are new to practice or who are contemplating setting up in practice in the future. It is intended to be a helpful point of reference.

Moreover, this guideline has no regulatory status and it is issued for guidance purposes only, and in the event of any conflict between the content of this guideline and the ICATT Rules and Regulations 2018, the latter shall at all times take precedence. Therefore, this guideline should not be regarded by a member as a substitute for familiarizing themselves with the appropriate rules and regulations or, where necessary, obtaining specific advice concerning a specific situation.

3. THE PRACTISING CERTIFICATE

3.1 - WHO IS REQUIRED TO HAVE A PRACTISING CERTIFICATE?

Any ICATT member performing work under ICATT’s definition of public practice in Trinidad and Tobago must hold an ICATT Practising Certificate.

This section explains when a Practising Certificate is required, details of the eligibility requirements and the ongoing conditions for holding the certificate. The differences between a Practising Certificate and an Auditing Certificate are explained below. Practising and Auditing Certificates are available to members who meet the eligibility requirements.

3.2 - WHAT IS PUBLIC PRACTICE?

ICATT defines public practice as:

a) Accepting an appointment as an auditor; or
b) Signing or producing any accounts or report or certificate or tax return concerning any person’s financial affairs in circumstances where reliance is likely to be placed on such accounts or report or certificate or tax return by any other person (the third party), or doing any other thing which may lead the third party to believe that the accounts or report or certificate or tax return concerning the financial affairs of such a person have been prepared, approved or reviewed by the practitioner; or
c) Holding oneself out, or allowing oneself to be held out, as being available to undertake the activities referred to in (a) and (b) above and allowing oneself to be known as a firm of “Chartered Accountants”, an “Accountant” or an “Auditor” or any similar description or designation in the context of the practitioner’s business shall be regarded as an example of such a holding out; or

d) Holding oneself out, or allowing oneself to be held out, as a sole proprietor, partner or director of a firm, where public practice is carried on.

Although members may not consider themselves to be in public practice at present, their statuses should be continually monitored.

### 3.3 - WHAT IS NOT CONSIDERED PUBLIC PRACTICE/EXEMPT ACTIVITIES

The following book-keeping services shall not constitute public practice:

- **a)** The recording of basic accounting data up to and including:
  - i. the preparation of accounting records to trial balance stage;
  - ii. reconciliation of bank accounts;
  - iii. maintenance of sub ledgers, and reconciliations of general to sub ledgers.

- **b)** The preparation of payroll:
  - i. salaries and wages; and
  - ii. PAYE, Health Surcharge and other statutory deductions.

- **c)** The maintaining of Value Added Tax records.

If you work on the fringes of the definition of public practice you will need to assess carefully whether you should hold a Practising Certificate. This would enable you to undertake work, within the definition of public practice, that may be incidental to your regular activities.

If you are a self-employed in the areas of bookkeeping and management consultancy services, where the work will be used solely by the client, this would be regarded as being outside of the definition of Public Practice. However, if a third party could rely on your accounts, reports, certificates or tax returns (e.g. a cash flow statement provided to a bank to support a loan application), a Practising Certificate would be required. Most forms of communication with the tax authorities, (even completing a tax return that will be signed by the client) or banks/other financial institutions on clients’ financial affairs would be regarded as coming within the definition of public practice.

Additional guidance can be found via ACCA’s FAQs - Do I need a Practising Certificate. [http://www.accaglobal.com/content/dam/acca/global/PDFmembers/2012/2012p/PC_factsheet.pdf](http://www.accaglobal.com/content/dam/acca/global/PDFmembers/2012/2012p/PC_factsheet.pdf)

### 3.4 - HONOURARY MEMBERSHIP/PUBLIC PRACTICE WORK EXEMPTION

ICATT recognises that members may wish to assist friends, family or local charities by preparing accounts and other financial documents. This ‘honourary’ work is not public practice, if the following conditions are met:

- The accounts are of an entity which does not require the appointment of an auditor; and
- No fee is payable or other material benefit receivable in respect of the work performed; and
- Any third parties are made aware that the activity has been carried out by an Honorary Reporting Accountant; and
The honorary public practice exemption allows members to use their skills to contribute to their local communities or to help family, friends and local charities as a favour. It is not an entry route into public practice. It is not acceptable to produce business stationery regarding such work.

Even though you accept work in an honorary capacity, you may still be sued for professional negligence. You should therefore carefully assess whether the type of work undertaken means you should hold professional indemnity insurance cover or do appropriate continuing professional development.

### 3.5 - TEMPORARY MEMBERSHIP

Council may grant temporary registration to any applicant for a period not exceeding 6 months at any one time to persons undertaking public practice in Trinidad and Tobago where the applicant:

a) Can show to the satisfaction of Council that he has the approved accountancy experience;

b) Has satisfied the Council of his having fulfilled any of their required conditions; and
c) Is in possession of a valid Practising Certificate issued based on criteria equivalent to that of the Institute from the professional accountancy body of which he is a member, and is subject to practice monitoring reviews by that body.

(See ICATT’s Guidelines for Temporary Registration)

### 3.6 - RECIPROCAL MEMBERSHIP

Council may in its absolute discretion admit to membership on such terms as it considers appropriate any member of any accountancy body which, in Council’s opinion, is of equivalent standing to that of the Institute, at the time of admission of the member to reciprocal membership provided that the relevant accountancy body grants reciprocal membership to members of the Institute.

For the purposes of reciprocal membership, an accountancy body shall be considered to have equivalent standing to the Institute where that body is a member of IFAC and approved by Council.

(See ICATT's Guidelines on Professional Indemnity Insurance Requirements)

### 3.13 - CONTINUITY IN PRACTICE

An applicant or a holder of a Practising Certificate must enter into and keep in force for all the period during which they hold a Practising Certificate, a written agreement with a ‘nominee’ which is either one other individual, or a firm. ICATT will monitor and enforce its rules and regulations by analysing a practitioners’ annual returns and carrying out monitoring visits. (See The Licensing Committee Guideline on Practice Monitoring & Quality Assurance for further information).

### 3.17 - VALIDITY OF PRACTISING CERTIFICATES

Once issued, the Practising Certificate is valid for a period of one (1) year.
It should be noted that there is no transitional provision with respect to Auditing Certificates. Persons engaged in audits would have been required to hold a Practising Certificate from ICATT (under the old Rules). Based on the expanded definition of public practice in the ICATT Rules and Regulations 2018, we recognise that there are members engaged in public practice who now require a Practising Certificate. To obtain this Practising Certificate, the application form should be completed including the transitional section.

We understand that members may have concerns in particular with respect to the sign off by a supervising principal and we draw your attention to section 7.2 (a) of the schedule 1 of the Practising Regulations which states that “The Council may, in exceptional circumstances, vary or suspend any requirement specified in Regulation 7.1 in its absolute discretion and impose such alternative requirements as it deems fit, which may include without limitation a requirement to pass any examinations deemed necessary.”

Council is committed to working with persons currently engaged in public practice (under the new definition) towards the issuance of Practising Certificates as required under the new Rules. If a member has no existing certificate, he/she must apply for a Practising Certificate on or before December 31, 2018.

The information provided to the Licensing Committee would need to be verified and the Licensing Committee may request further information from the applicant.

**Council will consider in this transitional period**

1. The overall experience of the applicant pre and post qualification
2. The nature of positions held, and experience gained
3. Areas of intended practice, relative to the experience record of the individual
4. For persons currently in public practice, the number of hours per annum serving clients, total of fees earned and the number of clients served.
5. Persons will less than 2 years and 2000 hours post qualification experience will not be entitled to a Practising Certificate until the appropriate experience has been obtained.
6. While on transition the person(s) whom an applicant gained experience under may not meet the criteria of a supervising principal under the new Rules; however, the section of the form should still be completed and signed off by this individual as far as possible.
